Product omschrijving

The OptiCam® LC Fiber Optic Connector is a multimode 50/125µm OM2 simplex fiber connector, intended for 900-micron tight-buffered fiber installation. Field termination can be done in about two minutes using the OptiCam 2 Termination Tool. The pre-polished fiber endface eliminates time-consuming field polishing, reducing installation costs. The LC connector has a natural-colored body with a black-colored backbone and 900µm boot.
